Computing Services Internet Technician

Jalen Scott

Why this career ?

- This is my work-study and I took the opportunity to really get to learn my job as an additional path other than sports and my major Sports management

- This was a career I continued to hear about from Nate as he offered my this work-study position and said that he could help me be able to work for any company as long as I know what I am doing

Nate Sellars

- IT Support Coordinator

- 2017-2019 BA business admin and work study @ Adams State

- bachelors in business admin with emphasis on small business

Observation site

- Adams State University

- 7 Stadium Dr, Alamosa, CO 81101

- Office inside Computer services

What is a IT?

- Support for Faculty and Staff Computers, Automated Software Distribution/Patching, ResNet Program
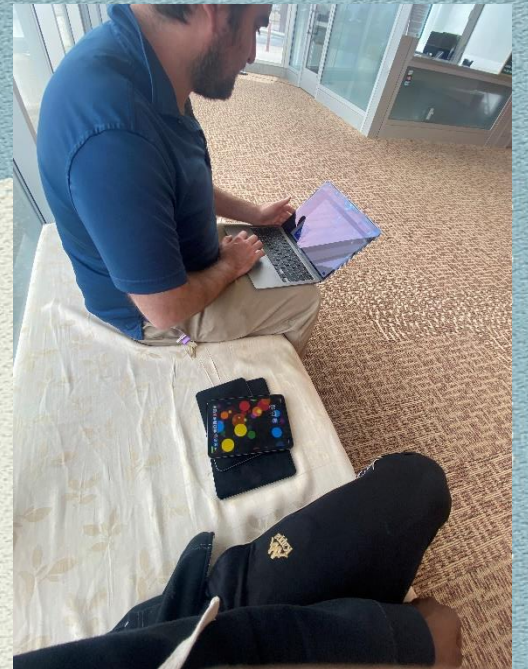

Daily Duties

- 8am-5pm

- Responds to emails all day regarding issues with computers on campus

- Does anything that the with coding/WIFI/power

Goals

- **1**. I want to learn how to reboot an computer (motherboard)

- **2. I want to be able to find out how wireless WIFI is distributed within the school and how to find a router**

What I learned from this experience

- I learned what the true duties of Internet tech and how it is critical that you know what you are doing

- I learned that you don't need a specific major to be an IT

Advice

- What ever career you choose just make sure it make you happy and able to have fun

- If you ever have a problem solving something the internet is always there with solutions

Values of this experience

- This was a good project that allowed us to shadow someone who we could possibly become if we choose to pursue that career

- I would pursue this career and have another option in my pocket besides football and a field out of my major that I could have for the future
